

2016-17 | BASEBALL/SOFTBALL

For over 40 years, Easton has constantly pushed the boundaries of technology, setting the standard for high performance baseball and softball equipment.

As the #1 bat in College Baseball, Easton bats have more hits, more runs, and more home runs than any other bat in the history of the CWS. We have been the bat of choice for over half of the CWS Champions in the last 40 years.

Easton has also had a major impact with the greatest players in baseball with MLB MVP, Cy Young, and Rookie of the Year awards, as well as numerous post-season awards and titles.

Our relationship with Little League® Baseball and Softball extends beyond 30 years and has created a love for the game in Williamsport and sandlots all over the world.

We have a long track-record at the Women's CWS and have been a long time partner of UCLA Softball, the most prolific program in the history of the sport, and are partners with ASA, USSSA, and USA Softball.

We know that players at all levels demand the very best equipment in the game. They can feel the difference between swift and sluggish, durable and delicate, and truly advanced innovations vs imitated. They know these subtleties are the difference between victory and defeat.

Those are the very reasons why innovation is the foundation of Easton's success. We're driven by a desire to give every player a significant and measurable performance advantage – allowing players of any age, and any level, to be the very best they can be.

For 2016/17 we worked even harder to create a collection of baseball and softball products that will deliver the very best in fit, function, comfort, and most importantly, performance.

*WE LOVE THIS GAME.
AND WE DON'T JUST PLAY.
WE PLAY TO WIN.*

- Extended speed barrel design combines the game's longest two-piece composite barrel with the game's fastest swing weight – it's a BEAST
- Patented two-piece ConneXion™ technology maximizes energy transfer for optimized feel
- Redesigned TCT™ Thermo Composite barrel – 1.5" longer than the original MAKO® BBCOR bat
- 31/32" composite handle with 1.2mm HYPERSKIN™ grip

SWI SWING WEIGHT INDEX • BBCOR .50 •

The Swing Weight Index (SWI) is based on Moment of Inertia (MOI) and will vary due to the bat length, material, barrel size and end-load. A bat with a low SWI is evenly-balanced and delivers power through fast swing speeds. A bat with a high SWI is end-loaded and produces power with more mass behind the ball at impact.

MAKO® LEGACY

THE DIFFERENCE YOU CAN FEEL

*Redesigned, re-crafted and re-shaped.
It's the best glove we've ever made.*

PREMIUM LEATHER

Easton HERO™ kip leather was chosen because of a unique combination of strength and softness. The strong fibers of HERO™ kip leather give it the durability necessary for the highest levels of play, while the semi-soft nature of the leather gives you a custom fit and feel the first time you use it.

ELITE CRAFTSMANSHIP

The soul of a glove reveals itself in how the finest of details are crafted. The stitch lines, welts, finger stalls, binding, leather, laces, fit and feel are individually inspected to ensure premium care and attention is given to every part of each glove.

NEW

MAKO® LEGACY

- Premium HERO™ kip leather tanned for easy break in and high durability
- Hand oiled PRIMASOFT™ sheepskin lining provides the ultimate in comfort and control
- Cushioned pinky and thumb loops for unmatched fit and feel
- Rolled leather welting
- Dynamic 2X finger welting creates better finger articulation and pocket shape
- USA tanned professional rawhide lace with tensile strength of 100lbs. for maximum durability

STEALTH

THE DIFFERENCE YOU CAN FEEL

“ My teams have used Easton gloves for many years and I can say that this is the best one yet. The Mako series breaks in well and the feel of it, on your hand is, amazing... very lightweight and durable. ”

MIKE SMITH
OLE MISS

“ The quality of the Easton fastpitch glove far surpasses anything our athletes have worn. The leather and fit is outstanding. The athletes have been raving about the feel of the pocket. Easton knocked it out of the park with this years glove model. ”

M5™ QWIK FIT™

CLICK. PULL. PLAY.

Performance and protection through an innovative and intuitive kid-fit design.

QWIKFIT™

Unique QwikFit™ strap system design allows youth players to simply CLICK, PULL and PLAY without adult assistance.

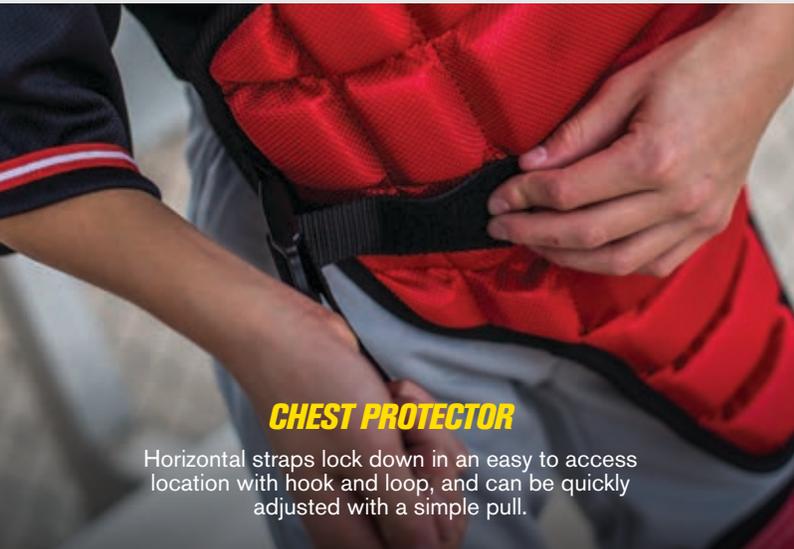

Anatomically designed gear to optimize the natural movements of a youth catcher.

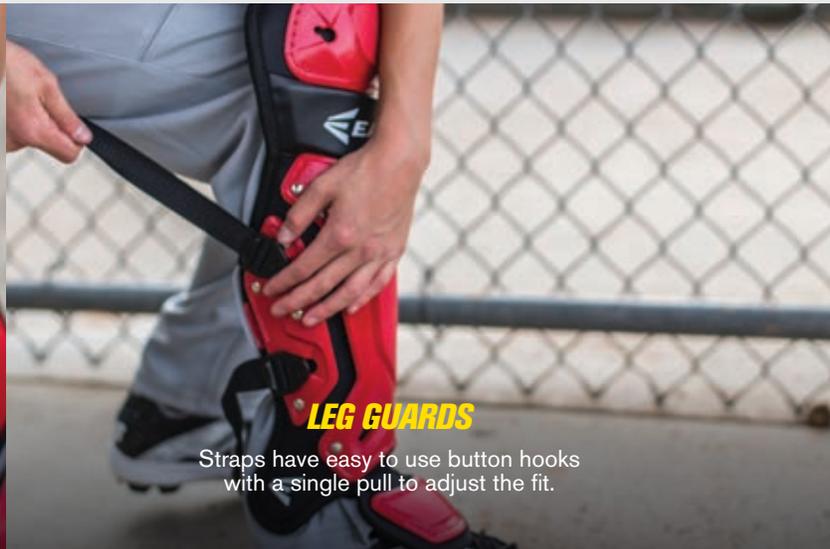

PLATE PROTECTION SYSTEM

Internal plates provide better energy management by dispersing ball impact.

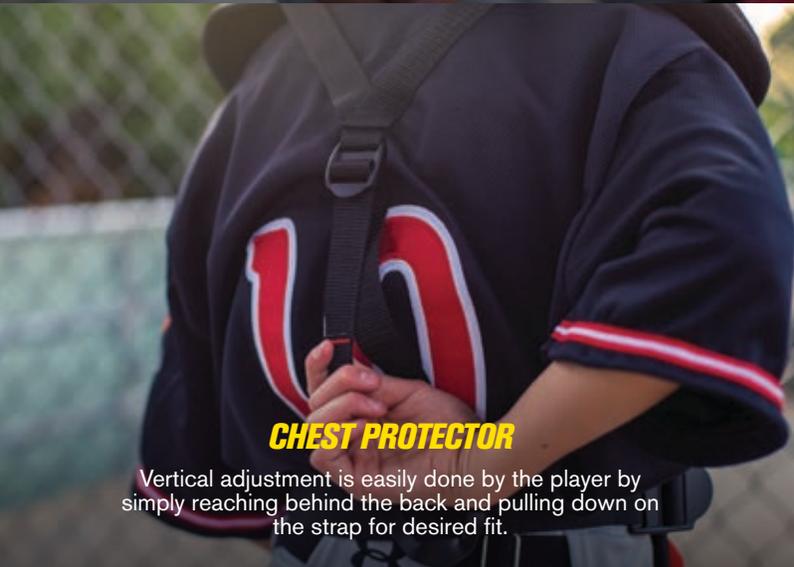

CHEST PROTECTOR

Horizontal straps lock down in an easy to access location with hook and loop, and can be quickly adjusted with a simple pull.

LEG GUARDS

Straps have easy to use button hooks with a single pull to adjust the fit.

CHEST PROTECTOR

Vertical adjustment is easily done by the player by simply reaching behind the back and pulling down on the strap for desired fit.

HELMET

A 3-strap system allows players to simply pull to desired fit, and lock in place with simple hook and loop.

THE EASTON POWER SENSOR™

SCIENCE IN EVERY SWING

CAPTURE, ANALYZE, AND IMPROVE YOUR GAME WITH THE EASTON POWER SENSOR

KNOW YOUR SWING

The Easton POWER SENSOR™ will help you understand your swing mechanics, not only from a statistical standpoint with metrics, but also from a video playback perspective.

LEARN YOUR STRENGTHS

Take the fundamentals, such as power and efficiency, and combine them with what you do well. Then learn to balance them out so you can improve your swing.

TARGET AREAS OF WEAKNESSES TO IMPROVE

What areas of your swing are lacking? Is power higher than efficiency? Target drills to increase your energy transfer to see improved results.

TRAIN WITH A PURPOSE

Pinpoint weaknesses in your swing and measure how they are improving over time. Bookmark your best swing for a view of your training from week to week.

FEATURES PATENTED SMART VIDEO CAPTURE™ TECHNOLOGY

Unlike other swing sensors, the Easton POWER SENSOR™ allows you to take a video of your swing while viewing corresponding metrics overlaid into the video. This gives you the ability to scrub video footage back and forth, frame-by-frame, to truly break down and pinpoint your strengths and weaknesses with each motion to become a better hitter.

POWER SENSOR™

A153 005

- **Science in Every Swing:** The EASTON® POWER SENSOR™ is a motion capture device that tracks your swing in real time. Simply attach the sensor to the bottom of any bat and start swinging.
- **Information will be automatically sent to your smart phone or tablet in the form of easy to understand metrics that will allow you to highlight strengths and weaknesses in each swing.**

- **The Smart Video Capture with metric overlay will allow you or your coach to visually identify areas to improve upon in order to become a stronger, more efficient and overall better hitter.**

- Comes with precision motion sensor, bat grip attachment and a USB connected wireless charger
- Corresponding EASTON® POWER SENSOR™ app available for free in the Apple App Store and on Google Play
- Basic metrics include Swing Speed, Time to Contact, Bat Path and others
- Advanced Blast Factor metric provides a simple, cumulative swing score out of 100 by calculating the Power and Efficiency of each swing
- Can add unlimited bats, tracks all stats and connects through Game Center to compete with friends

- Connects to any Apple device running on the most recent IOS system
- Connects to select Android devices, please check <http://www.easton.com/power-sensor> for most up to date list of devices
- Sensor:
 - Connects via Bluetooth Low Energy
 - Rechargeable battery lasts up to 8 hours of continuous use
 - On board memory stores up to 500 swings - swing while not connected and download later
 - Weight: 8.5 grams
- Bat grip attaches to any bat
- Wireless charger
 - Plugs in via USB
 - Wireless, inductive charging to sensor
